NUMBER 15

J. B. WHITE

Reese Turner has resigned from the House of Representatives in Austin. He was nominated in the run off primary election on August 27, 1938, and has served a little over two years.

Mr. Turner was a O'Daniel man and continued close to the governor through two sessions of the Legislature. He made a speech for Olin Culberson and is now being rewarded for that and other services he rendered. Friends here will be glad generally to know that Mr. Turner has been so recognized. He is to be a valuation accountant in the Railroad Commission. I dare say not ten people in Texas outside those in the office know what kind of a job Mr. Turner has won, but we must assume it is an important post to the tax payers.

Mr. Turner in his statement to the people said he had completed his work; that the things for which he stood when elected had been accomplished. Let's see what has happened.

On file at the Herald is the Turner election in the run off primary election in which he defeated Joe Slavik. The present governor had just been nominated. There was a wild scramble to get on his band wagon. In the July election of that year Mr. Turner issued a broadside and among other things wanted to re-write the constitution. That he said was necessary if the state were to be saved.

In the run off primary Mr. Turner announced a 7 point platform which included pensions, reorganization of the government, revision of tax laws, flood control for Milam, soil conservation, money to pay better salaries to school teachers, bus drivers and all school employees, an aggressive program to bring industries to Texas.

Out of the seven propositions laid down only one was written into law adequately, that of soil conservation. Mr. Turner, like everyone else then demanded \$30 per month for everybody in Texas over 65 years of age. Pension money was voted but not that much, besides the state must conform to federal regulations. The state government was not reorganized and no major departments abolished. The tax laws were not revised and worst of all flood control has not come, in fact flood damage has increased. We not only failed to get control but we were left in the tax paying tier of counties when most every other county in the Brazos area is exempt. Milam, devastated more than any other county in Texas, pays taxes almost alone among the area counties. School teachers and bus drivers are no better off appreciably and the only new industries brought to the state came as a result of the national defense program and at the time the platform was issued 13 nations were yet sovereign and Hitler had not yet launched his conquests.

No doubt Mr. Turner did the best he could. After all one man can't do so many big things.

Briefly, there is a vacancy now in the House from Milam. We do not ask anybody to run, rather we ask them not to run. What we do suggest here is that some intelligent thought be given and the people who value this place for the high standard of intelligence, and ability, it demands should draft their choice, representation in the long run will be a credit to us all. It is a hard post to fill and no one is entirely satisfactory. To say it has not been adequately supplied is no reflection on any one. It is simply open season on all legislative representatives in Texas as well as Washington. We feel personally assured Mr. Turner has been attentive and has done the best he could. Let's give careful thought about who will go from Milam.

The home front, that is the United States of America today, was a shambles of ineptitude, indecision, stupidity, old age, cowardice, politics, envy and schism.

President Roosevelt sent a message to Congress Monday. He said "I believe, I know." It was about the army. Senator Carter Glass of Virginia, now an old man, still retains a spark of American courage that we knew under Theodore Roosevelt. Said he: "It's a damn shame, (Continued on page 4)"

Senator Vick Says Milam County Will Get Better Roads

Senator Kyle Vick of Waco, in Cameron Monday to attend the annual convention of Highway 77 Association, said that Milam County will get roads; that Highway 77 and 36 will have the attention they deserve.

Senator Vick had pledged the people of Milam county their road system, long neglected, will be made equal to that of other surrounding counties. He also pledged the people he would get a new bridge across Little River. The Highway Commission has already made the designation.

Highway 77 and Highway 36 are in deplorable condition, the former a National and International Highway, all complete save Milam, Falls and Lee counties. Highway 36 is complete except through Milam county with recent highway department appropriations for work through Bell.

Senator Vick told The Herald that he had resolved to make better roads in Milam county his main objective of service in the Senate and he has no doubt he will be able to enlist the co-operation of the Highway Commission in this needed improvement.

Serious curtailment of traffic through Cameron has resulted in stagnation of business, especially to cafe, service station and recreating centers.

Legion Aluminum Swim Party Success; 300 Pieces Given

Cameron's aluminum pen was looking better today as around 300 pieces were thrown over the wire as a result of the American Legion swimming party at the Municipal Pool Monday.

E. W. Streetman, post commander, said that a total of one hundred twenty four children were admitted to the pool and each brought an average of from two to three pieces of aluminum.

The aluminum was thrown into the pen Monday night after the swimming party was over.

Thursday and Friday Canvas Day For Boy Scout Aluminum Drive

Grady Little, Chairman of the committee to conduct the aluminum drive under the Home Defense Council said that boy scouts will conclude the canvas of the city on Thursday and Friday of this week.

Housewives are requested to set aside all aluminum that may be damaged or not in use for on these two days every house in Cameron will be contacted.

Mr. Little said that these plans will require that a member of the committee go with the scouts so that housewives will know they are doing a good part for their country by contributing aluminum ware.

The drive is to be closed around August 1. An error was made by this newspaper in assuming the drive would close on July 22. This additional time will give all an opportunity to have a part in this vital work to bolster the nation's waning supply.

The Midget Press is Out of Commission; Motor Brush Needed

An automatic Kluge printing press owned by the Daily Midget was out of operation Wednesday.

The Midget was transferred to another press.

Two small brushes in the motor of the press had to be replaced. To give our readers an idea of how much Cameron has lost in the race of modern merchandising, the equipment needed will not cost over \$2 but had to be ordered out of Dallas with the prospect of being sent out of St. Paul, Minn.

The press may be in operation by Friday. In the meantime the publishers are getting The Midget to you as usual.

PARTY

Beverly Haynes, Ann and Jean Bradberry, George Childress, Jimmy Law, Gus Edward and David McLane, Kay Mondrik and Jesse Coward, Jr., enjoyed a party given in the Charles Brady home for Andrea and Edward Brady by Almarie and Charles Brady.

They were served lemonade, cookies, and candy.

AIRPORT SITES GET INSPECTION WEDNESDAY

Capt. J. E. Smartt, personal representative of Maj. Gen. Brant, commander at Randolph Field, was in Cameron Wednesday for an inspection of proposed sites for an airport here.

Capt. Smartt was a guest at the Rotary Club luncheon and made the inspection with John B. Henderson, chairman; P. W. Davis, Dr. A. E. Kruse, J. R. Hays and Mayor Chas. C. Smith.

The officer was cheered as he left the luncheon before Chas. M. Hicks gave the program and spoke briefly as he passed the speakers table. It was an unscheduled address. He said, "I am only listening to what you have to say today. Some time later I may come back and tell you something you want to hear." This brought applause.

Capt. Smartt hurried away with the committee to inspect two other sites before leaving at 2 p. m.

SWIMMING HOLE GETS FIRST VICTIM HERE

The body of Melford Jackson, nine year old negro boy, was found in the waters of a gravel pit near Curry early Wednesday morning.

Deputies Sheriff Carl Black and LeRoy Massengale found the body shortly after midnight and inquest was held at 2:15 a. m. In the judgment of the coroner the boy met death by drowning.

The Curry pit, due to excessive rains through the year, has been used as a swimming pool and it was thought the boy went to the pit sometime Tuesday afternoon alone. So far as officers were able to ascertain no one was with the boy.

Miley Jackson, father of the boy, is employed at the Grabein Chevrolet Company.

It was said here the boy may have gone to the pool around 5 p. m.

Hybrid Corn Show On Coker Farm

All farmers who are interested in hybrid corn are invited to attend a meeting to be held on the E. E. Coker farm at Ben Arnold Monday afternoon, July 28th, at 2 p. m.

E. A. Miller, Extension Agronomist of College Station will talk on the importance of hybrid corn.

Farmers will have the opportunity to compare the hybrid corn planted beside two varieties of open-pollinated corn.

These demonstrations are being carried on by Grady Coker, 4-H Club boy and son of E. E. Coker.

J. W. Stufelbeine, Jr., County Agent.

Marlow Home Coming Sunday, July 27th

Sunday, July 27th is Home Coming Day at Marlow. It is the desire of all the community that all who have lived there and those who have friends there will come and spend the day with us.

There has been a good program arranged, also there will be dinner on the ground. Everyone is asked to bring a well filled basket.

The Marlow Baptist Revival begins at that time and lasts until August 3rd. It is the hope of the pastor that you will do all you can to make the Revival a Blessing to the whole community.

Mrs. Sal Wyetznar and two sons from Brooklyn, New York, are visiting her niece, Mrs. S. Kestenbaum.

Becky Howard of Waco is visiting her aunt and uncle Mr. and Mrs. Randolph Williamson.

R. D. BROWN DIES AT HOME HERE

DEFENSE RALLY HERE GETS A BIG CROWD

Milam county's first defense rally under auspices of the Home Defense Council brought around 3000 people to the Yoe High Athletic Field Tuesday night.

It was the most successful such occasion held in the city since world war days.

Emory B. Camp, Chairman of the Council and master of ceremonies said Wednesday the Council is greatly encouraged over the interest shown by the people. "It was a splendid patriotic gesture and proves that Democracy is not only aroused but adequate for all national emergency demands."

Streets about the athletic field were jammed with cars for many blocks and perhaps 1,500 people were in the park when the bands began their concerts at 7:30.

The crowd was county wide and represented whole-hearted co-operation from people in all sections of the county.

William F. Smith of Waco, a profound thinker and humorist, gave the big crowd a laugh and a heart throb with his patriotic appeal for National Defense and preservation of America.

Ed Reidel, State Commander of the American Legion, made a patriotic appeal and his address was well received. After the rally Commander Reidel was entertained by a group of friends in the Legion at the residence of Grady Little.

Prominent on the program was Father A. L. O'Connell of Burlington who gave the invocation.

B. L. Archer and Billy Triggs led the singing and the Rally was closed with the Star Spangled Banner sung by the audience and this was an inspiring spectacle when 3,000 voices lifted the melody of the National Anthem to the stars above the field.

Returns From Long Trip; Only Bad Roads Are In Milam County

Mr. and Mrs. R. G. Grabein and their daughter, Nancy Lou, have returned from a long trip into West Texas.

Mr. Grabein said they visited principally the ranch country in the regions of Alpine, Fort Davis, Del Rio, Uvalde and San Angelo. Range conditions were never better and Texas is rich in livestock said Mr. Grabein.

He witnessed a sale of 1000 ewes from a sheep ranch. They brought \$8 each or a total of \$8000.

The only bad roads they traveled were in Milam county, said Mr. Grabein who along with other business men here realizes that Cameron in particular and Milam in general are on the side roads now with no major traffic and a city without traffic is doomed.

In West Texas where the population is sparse roads are good. Here where the population is dense the roads are narrow and bad. Central Texas has never had a Highway Commissioner.

VIRGIL T. MEEK IS DEAD AT RICE HOME

Virgil T. Meek passed away July 24th, about 1 a. m. at the home of Jack Wilson in the Rice School Community.

He was born Nov. 8, 1900, and was a carpenter and truck driver.

Until last June he resided in San Antonio where he was employed by the Barrett Lumber Company. He had been in ill health for the past nine months.

He is survived by his widow, Mrs. Pauline Meek, and five sons, Loren, Richard, Virgil, Jimmy and Paul Meek all of the Rice Community. Three brothers: E. L. Meek of Vinita, Oklahoma; A. R. Meek of Prady, Colorado; and I. S. Meek of Amarillo. One sister Mrs. W. D. Simpson of San Angelo.

Funeral service will be held at 2:30 p. m. Friday at Rice. Interment will be made in Rice cemetery. Pastor in charge will be R. D. Worcester of Eagle Lake. Green Funeral Home will direct arrangements.

SEIZURE INDO CHINA DENOUNCED BY WELLES

Japanese occupation of French Indo China which was under way today was denounced by acting Secretary of State, Sumner Welles as a direct threat to the security of the United States.

Sometime during the night of Wednesday, the Japanese Ambassador in Washington was given the American Government's reaction to the occupation of Indo China.

Early Thursday, Secretary Welles said that the invasion was without justification and the government of the United States has denounced it as unwarranted, places in jeopardy the Philippine Islands and threatens the security of the United States.

The gravity of the situation over shadowed the war in Russia where it was said that Hitler's forces have been completely stopped.

In London it was said that Britain and the United States were taking simultaneous measures to forestall any Japanese aggression in the far east.

It was feared here that nothing would be done about it, that the extent of the United States' action would be to talk about or possibly impose economic sanctions.

For the first time since 1939 a power has openly and deliberately challenged the United States to battle. If the United States now fails to go to war against Japan it will be an indication of fatal weakness on the part of this government.

Nobody has any confidence any longer in the government's announced determination to resist aggression. The American people will not be impressed with anything short of shooting. There will be no more crisis. They have said "Wolf, Wolf," too many times.

The great naval base at Singapore is now being brought under threat of Japanese war ships. The Japanese navy escorted troop transports late yesterday off the coast of Haigon not far from Manila Bay in the Philippine Islands and now the Dutch East Indies are directly threatened, along with the Philippine and Singapore.

Judge Dancy Urges Highway 77 Through Falls and Milam Co.

Highway 77 through Falls and Milam counties was urged Monday in an address by Judge Oscar C. Dancy of Brownsville, which highlighted the proceedings for the day with luncheon at noon.

Highway 77 Association held its annual convention in Cameron. The meeting was not well attended but the delegates were representative in their distribution over a wide area in Texas.

Highway 77 is an international highway from Canada to the Gulf. Falls, Milam and Lee counties are yet to be improved.

Cameron is vitally interested in the success of this association and has given every co-operation possible.

The program included reports on progress for the previous year and a number of talks by prominent county officials from a number of counties.

Senator Kyle Vick of Waco and Representative Henry G. Leeman of Giddings were in attendance at the meeting.

Mr. and Mrs. E. A. Oliver had as guests their old friends, Mr. and Mrs. Sheridan Williams and Mr. and Mrs. Swan Wright of Sour Lake. Their visit here was a genuine pleasure for the Oliver's. While here they visited the flower garden of Mr. and Mrs. Ray Westbrook and mother, Mrs. Tony Barrett. They were well impressed with Cameron.

Miss Echo Daniel, a nurse from the Cameron hospital, has gone to Alabama for a two weeks visit with relatives.

Mr. and Mrs. Wayne Pemberton and Miss Gertrude Burstyn spent Sunday with relatives in Austin.

L. S. Cunningham of Gause was here on business Thursday.

WAS CITY LEADER IN VITAL PROGRESS ERA

R. D. Brown, 70, widely known citizen and a native Texan, died at his home here Tuesday night.

He had been in ill health for several years and while his condition was regarded as critical and his death not unexpected, news of his demise profoundly shocked citizens and brought sorrow to the hearts of many.

Mr. Brown was a native Texan and had spent his life in this state. His early manhood was spent in Cameron where his mother lived and it was in this city that he achieved his greatest life work as a business man and public official.

Funeral services will be held at 10 o'clock Thursday, July 24, 1941, from the family residence with interment in Oak Hill Cemetery.

Rev. J. P. Love, Rector of All Saints Episcopal Church, will conduct the services, assisted by Rev. O. C. Acree, pastor of First Presbyterian Church. The Coleman Funeral Home will have charge of the funeral arrangements.

Pall bearers will be: Rush Thomas, Walter Sharpe, Judd Davis, B. F. Bonds, Dr. James Watson, Dan Tyson, Judge John Watson and Rube Johnson of San Antonio.

He is survived by his widow, Mrs. R. D. Brown, and a cousin Stanton Brown of Waco.

Other relatives surviving are the following cousins: Walter B. Dossett of Waco, Andrew Dossett of Beverly Hills, Calif.; Stanton Dossett of Shreveport, La.; Mrs. Leland McCulloch of Pharr. Mrs. Stanley Swift of Cameron, and Mrs. John Grey Kindall of Pottstown, Penn.

Mr. Brown aside from his business activities, was for years City Secretary and Treasurer, until his health prior to 1930 forced him to give up the position. He was given leave of absence by the city because his services were so highly valued, but he was critically ill for months and voluntarily gave up his work.

Mr. Brown's wide experience made him valuable to the city in a vital era of modern day progress. Financial affairs of the city were in good hands and his advice was always sought by the Mayor and Board of Aldermen. He was succeeded by the late J. C. Joseph during the administration of Judd G. Davis.

For years he was manager of the Cameron Compress Company, being affiliated and interested in the Dossett Compress interests. He was a widely known man in the compress trade and in the cotton trade world.

Mr. Brown received his early financial training in the First National Bank in Cameron where he was Cashier. He left the bank to devote his full time to the compress in Cameron.

After his retirement as City Secretary and Treasurer, he continued active in the Compress office here, but through declining health was never able to take normal part in the activities of the corporation.

Friends in Cameron and elsewhere Wednesday were paying him tribute under the shadows or sorrow. They saw in his death the loss of one who was unusual, belonging to a race of men whose strength, courage and industry sufficed for a golden era of demand and progress in Texas. Only few men ever attain his sphere of usefulness in their community and state.

Aluminum Drive is Failure Thus Far; Only Two Days Left

Unless a last minute successful effort is made the aluminum drive in Cameron will be a complete flop.

Boy Scouts are to make another canvas of the homes, it was said, but if the canvas yields no more aluminum that the first the cause will not be materially aided here.

Another way of explaining the measure of failure would be to say the wire pen on the court house lawn was built too large. A smaller one might have reduced the average of humiliation over the showing.

The pen now contains about enough aluminum to decorate a kiddie kar. No doubt much waste aluminum is available if proper steps were taken to obtain it.

ROOSEVELT DECLARES FOR DRAFTEE RETENTION

President Roosevelt Monday asked Congress to amend the Selective Service law so that men now in the service, including selectees and national guardsmen, may be held pending the outcome of the national emergency.

The President in his message indicated that conditions are far more grave than a year ago.

He recommended that men over 28 years of age be discharged from the service as soon as possible.

This was regarded as vastly complicating his recommendations and weakening his position. Quotas for the army will be boosted if the congress agrees with the President. He urged a limitation on the number of men drafted be removed.

At present no men are being inducted. If the selectees and national guardsmen are required to remain in the army there will be no room for draftees unless army camps are increased.

The message was regarded as a buck passing, as the President said the responsibility now belongs to congress.

Debates will extend over August 1st and that will enable the Hitler representatives in Congress to dissolve the armed forces of the country.

Roosevelt was being denounced by both Democrats and Republicans alike for a do nothing policy. Senator Carter Glass of Virginia said a year ago the neutrality law was a surrender of freedom of the seas. Wendell Willkie, republican nominee last year, has told the President the people want action, an aggressive leader.

Mr. Roosevelt, based on interpretations of the moment, has surrendered. The congress alone may make laws but the President has always had the authority to protect American interests anywhere in the world.

The President's message was vague on the question of a national emergency but was fairly explicit on the time element. Congress by suggestion was asked to declare a national emergency.

Congress will not do anything now to insure the nation's safety. The body will only debate until after the boys come home. The plan now is to dismantle the armed forces. Mr. Roosevelt himself is not acting in good faith, some said, because he has waited until 10 days before the time limit.

RUSSIANS LOSING IN WAR WITH GERMANY

News was scant today from the battle area in Russia, but the only account available indicated that Russia is losing the war.

The Germans claimed that six Red Divisions in the North have been taken and they are in control of the Leningrad area.

Over the week end the Germans issued statements which were believed to out line the successes for the week. They claim that the issue is settled and now it is but a question of time until Russia will be beaten.

Joseph Stalin has taken complete charge of the Soviet war.

Pope Critically Ill Over War Worries

Pope Pius was said to be critically ill at the Vatican.

Worries over the war and much work coupled with a frail body, were burdens rapidly diminishing his strength.

In recent months he has worked too much. He has been removed to a quiet home in the Vatican gardens where he may have complete rest.

CAMERON, TEXAS

what a whale of a difference a few months make

W-H-E-W-W but it's hot! And each week-end seems hotter than the last one. It's hard to realize now that only a few short months ago cold winter winds were sweeping this section. Soon they will be back again and the heat of summer will be forgotten.

Heating your home is important, especially so since many winter illnesses are directly traceable to catching cold due to inadequate heating facilities in the home during the winter season. It is not too early to be doing something about winter comfort now. Already thousands in this section are heading for an easy, healthful winter by bringing their heating facilities up to date ahead of the fall rush. Besides giving a widespread, healthful warmth, modern gas heating appliances look better and serve you more efficiently.

Standing by to Serve You When
Gas Service Is Vital to Your Welfare

★ Modern facilities, including many powerful compressor stations located at strategic points on Lone Star's 4,800-mile interconnected pipe line system and an abundant gas supply developed through more than three decades, are standing by ready to deliver a dependable gas supply to you during the coming winter when unfaltering, uninterrupted gas service is most vital to your welfare.

Snow Still Seen As Freeze Goes Into 13th Day

Texas' Coldest Spell For 41 Years Shows No Sign of Letup; Thursday Top Is 24

Dallas headed into its thirteenth day of freezing weather Thursday night as the Weather Bureau hoisted snow signals for this section for Friday and Saturday, with Texas. It was the ninth consecutive day of Dallas' coldest wave in a decade, and despite moderating weather in West Texas the state still was gripped in freezing cold.

The cold wave is the most tenacious in Texas in forty-one years and in Dallas was comparable with the cold January, 1918, when the mercury dropped below freezing thirty-four days out of the forty from Dec. 27, 1917, to Feb. 4, 1918. Since Dec. 27, 1939, all but five days have had sub-freezing weather, and some of the lowest temperatures were recorded since the all-time low of 3 below zero was set in January, 1930.

One of Lowest Januarys.

Notorious January, already branded the bitterest month of the year by Dallas' twenty-seven-year tales of the roaring blizzard of '39, will be recorded this year as one of the worst.

The average daily minimum temperature for the month for a twenty-five year period is 38.8 degrees, and is nearly two degrees less than December's average, next coldest month, and nearly four degrees less than the February average. For the current year, however, the average to date is 24.6, twelve degrees below normal.

9 MILLION MEN ENGAGED IN BATTLE

With nine million men engaged, the battle between Russia and Germany continued today unabated with the tide slowly developing in favor of Germany.

The German High Command announced the capture of Smolinsk on the road to Moscow.

At the same time the Germans also announced that Leningrad will soon fall and that the capital of the Ukraine, the ancient city of Kiev, will be taken and that the issue now is no longer in doubt.

From Moscow the Soviet radio partially confirmed the German statement by admitting that Molinsk was severely threatened.

In the far East where on yesterday a cabinet crisis developed in Japan, the emperor had given Prince Konoye instructions to appoint another cabinet and it was said that the army and navy will dominate the government in Japan.

This was taken to indicate that little hopes can now be had for any kind of understanding with the United States.

From China came the report that Japan was preparing to attack Siberia to aid the Germans in their war with Russia.

In Washington General George C. Marshall, chief of Staff, told Congress that unless something is done by August 1 to insure draftees remaining in the army that men from Alaska and other out posts must be called home.

He also asked Congress to remove restrictions on the number of men that may now be kept under arms. The present law prohibits more than nine hundred thousand men to be under arms at any one time

Former Teacher Here Now Rancher's Wife

Here is an interesting item from Navasota Daily Examiner and will be of interest to many in Cameron because it involves a former popular young woman, Miss Blanche Hensley, who was a member of the school faculty here. Her husband is a rancher. Here is the Navasota comment by the county agent of Grimes County: "Arthur Fuqua, rancher of Erwin, recently sold twenty grass fat calves which netted him \$35 a round. These calves, of course, were only a part of his crop which will be disposed of when they come to maturity as grass fat butcher animals. Aside from being one of Grimes county's most progressive stockmen his better-half maintains one of the loveliest homes in the county. Farmers over Grimes county are now having the opportunity to view the Arthur Fuqua home through a recent moving picture made of the landscaping around it by home agent Rheba Merle Boyles."

Pvt. Edwin F. Stanislaw of the U. S. Air Corps and stationed at Kelly Field, spent a few days at the home of his parents, Mr. and Mrs. F. H. Stanislaw last week. He will leave with the 327th School Squadron for Bakers Field, Calif., on August 15th. A sister, Miss Sydonia Stanislaw, who is employed near Galveston at Camp Wallace, spent the vacation at the home of her parents recently Irene Stanislaw who is attending business school in Austin, also spent a few days in the home of her parents.

Mr. and Mrs. M. G. Cox are spending the week end in Houston with their son, Mr and Mrs. Joyce Cox.

WOODMEN CIRCLE
CAMERON GROVE 996

The Cameron Grove 996 held its monthly meeting on Tuesday.

Business session opened with Guardian Louise Weems presiding.

Officers present in absence of officers were: Mesdames Inez Angell, Gladys Matyastik, Josephine Boedecker and Nettie Storey.

The Grove sent five bouquets to sick members at the local hospital, made six calls, sent one wreath to a funeral. The delegates attended the fifty year celebration of the Woodmen Circle at Omaha, Nebraska, and gave reports of the convention. Mrs. Ann Marie Laake received honors and also a gold crown for loyal services to the Woodmen Circle work.

One of the most spectacular presentations of the Institute was a pageant at the city auditorium at which time two thousand taffeta gowned women portrayed the Society's five decades of progress. Climax of the pageant was the "March of Time" in which a gigantic human clock revolved about the Nucleus of a human Birthday cake with fifty candles. The pageant amazed spectators by its military precision and delighted them with its spectrum of pastel colors. Eighteen shades of colors were represented.

The Institute program was jammed with pageants and rituals, parades and stunts along with a number of business sessions. This was one of the greatest Fraternal gatherings in history.

We are hoping more Woodmen members will attend the next convention.

John K. McQueen and Miss Lillie Mae Eaton were quietly married Friday morning, July 18th, at 10:30 o'clock by Judge Jeff T. Kemp, at his office. Mr. McQueen is in training at Brownwood where they will make their home for the present. Mrs. McQueen formerly was of Hicks and is well known there.

Mrs. John Wallace of Minerva was here Thursday.

Two Former Students Entertain Rotarians; One a West Pointer

Two former school mates at Yoe High and grid iron cronies as well, one a graduate of West Point and the other a Baylor graduate, entertained members of the Rotary club and their guests Wednesday at noon in a unique program that brought every member of the club to the luncheon with the exception of one, and some ten or fifteen guests.

Lieut. William G. Gillis, graduate of West Point, told the Rotarians something of the outlook for a plebe who goes to the United States Military Academy.

Billy Triggs, whose voice has gained him wide recognition, sang a song or two and ended the program with the West Point Alma Mater song and Gillis accompanied him at the piano.

Both were called Billy in the introduction as both are known to the people here as Billy Triggs and Billy Gillis. The snappy West Pointer took off his coat for it was very hot and gave the audience both the humorous and serious sides of West Point life from the standpoint of a cadet.

Gillis was recently married and with him for the occasion was his bride and mother Mrs. Graham Gillis. Special guests of the club were also Mr. and Mrs. A. J. Triggs, parents of Billy Triggs.

Carol Wood, who is President of the Rotary Club and coach of athletics at Yoe Hi School, stole time from the program committee to claim responsibility for these successful young men, but a moment later, Charles Hicks who was chairman of the program committee got in the picture also, for said he, "I, too, had these boys under me in High School."

All in all it was a very happy occasion to have these boys back home both now far advanced. They played football together in Cameron.

Gillis continued with his athletic career at Schreiner and also at West Point and last year was captain of the West Point team. Triggs gave up athletics when he went to college.

A regular feature of the program each Wednesday is a news broadcast by J. B. White, publisher of the Herald.

Allen Varner of Gause was a Cameron business visitor Thursday.

Brownsville Pleased With Selection of Coach R. P. Bennett

The following news story was taken from a Brownsville newspaper indicating satisfaction over the action of the school board in that city in electing Coach R. P. Bennett to the staff.

Coach Bennett was never fully appreciated in Cameron. His ability was always underestimated. Now he goes to a field where recognition will be his and friends here are happy over his good fortune:

Handsome Raymond P. Bennett, assistant coach at Cameron high school since 1935, was elected line coach of the Brownsville high school football team by the local board of education in a special session here Monday night.

Bennett, 30-year-old former Baylor university football and baseball star, was signed to one-year contract at \$1,500 salary. In addition to his coaching duties, he will teach social studies in the high school. He is married.

Baylor Graduate

He succeeds Robert Jackson, who was recently elected head coach and director of athletics here. Mr. Jackson and Supt. E. C. Dodd recommended Mr. Bennett to the board after interviewing several applicants in Austin last Saturday.

The new line coach was given the maximum salary prescribed by the board for his position.

Graduating from Baylor university with a Bachelor of Arts degree in 1932 after playing two years on varsity football and baseball teams there, Mr. Bennett took a coaching position at Rogers High school in Bell county. He coached at Rogers from 1933 to 1935.

In the fall of 1935, he signed as assistant coach at Cameron High school in Milam county, serving under Head Coach L. C. Wood since that time.

Due About August 25

He is expected to come here from Cameron on about August 25, in time to start work when the Eagles open football training on August 26.

Coach Wood at Cameron sent the following statement to the local board: "Mr. Bennett and I work together, and he knows either line or backfield play from the ground up. He was head coach at Rogers for two years before he came to us. If you are looking for a good line coach, you will not beat Mr. Bennett. I hate to even think of not having him with me this next fall for he is going to be hard to replace. I assure you that Mr. Bennett will fit in your school system. He is a real man and one that you will not hesitate to have around your boys. I commend him to you and assure you he will deliver the goods."

THE PASSING OF THE

Boomtown

Oil boomtowns exist today only in the movies. The old-time "gusher" wells are gone forever.

In the early days, as long as oil flowed, the boomtowns flourished. But soon the wells failed and the booms collapsed, carrying with them the income and security of those who had depended on them.

Today, through a sound program of conserving oil and gas, hundreds of Texas communities are enjoying a permanent type of petroleum development. Furthermore, because of conservation, we have the largest oil reserves in the world, one of our greatest assets for National Defense.

Oil now builds stable communities. It provides assured tax revenues and greater ultimate tax returns than were ever possible in boomtown days. And every citizen benefits from the income oil creates.

Conservation not only protects Texas oil resources. It also assures for many years the prosperity which oil brings to every community where it is found.

a crime and cowardly. We should never have passed such a bill as the neutrality act. By so doing we played the part of cowards and gave up the freedom of the seas, something we have fought for since the beginning of this republic, I think," said Senator Glass, "we should shoot hell out of Hitler."

Now comes a message to Congress which in effect asks for a declaration of national emergency. That would be tantamount to a declaration of war. Mainly the President urges that National Guardsmen and Draftees be retained for the emergency. But, leaves open the question and admits it may be alright to put a time limit on the duration of service.

Senator Taft comes through with a bill which has the approval of Hitler. "We will keep them in 4 months longer," says Mr. Taft. And, Mr. Wheeler says: "I think you've got something there."

Senator Connally of Texas says he will offer an amendment to let men with dependents and those with business responsibility out of the service.

So begins the great confusion.

The National Selective Service Act was doomed to defeat at the beginning because it did not provide for an army, only an excuse and a half hearted effort at defense of America. It was a politicians holiday, the day they passed the bill.

A labor trend in the administration of the act has reduced the draft machinery to the barest minimum of authority and responsibility. Regulations now virtually have left selective service optional with the registrant. There are some thousand or more trades for which a man is qualified, may qualify or be in training or preparation for, and any one of these will be sufficient grounds for deferment.

Any person who in any way contributes to the nation's welfare or whose industrial or agricultural position is in the slightest degree important to the farm or business in which he may be engaged, may ask for and obtain relief from responsibility to the armed forces of his country.

Occasionally a Draft Board will defy the Federal Government and send a man to the army.

When the old men and politicians are through in Washington the Scout Leader and the Cubs will be left to fight the battles of Democracy.

We have built a psychosis of fear with fear itself. We have adopted the path of security by appeasement and by concessions to labor. Only the citizen like you and I can now save America, but it cannot be done by leaving everything to the Congressmen and Senators. I have already told 'em what I think, have you?

There will be no declaration by Congress of a National Emergency unless and until Japan takes the Philippines and the Luftwaffe raids Boston.

The enormous spiritual reserves of America, they say, will prevail against the dictators.

When the attack comes we would call the community to prayer and mobilize the Cub Scouts.

The best argument against such a course is the fate of millions who had spirituality and no guns, or the burned and distorted face of a British Baby.

BIG RATTLER KILLED

A diamond back rattler measuring two feet and seven inches, was killed on the John Lewis farm near Corinth on July 20th by Willie Beard and sons, Adrian and Sonny, also Glenn Lewis.

The season has produced many large rattlers and some believe they are on the increase in this section.

HUSBAND OF CAMERON GIRL GETS PROMOTED WITH GULF

Fred Lange has been given promotion by the Gulf Oil Corporation.

He has just been made investigator for the company.

Fourteen years ago he began work as an office boy with the corporation, attending night school and taking advantage of his opportunities. He obtained a law degree in Houston.

He has had a number of promotions with the company.

Eight years ago he married Miss Corine Price Terry, daughter of Mr. and Mrs. J. M. Terry. She formerly was employed in the office of Judge Jeff T. Kemp here.

Claude Loftin is seriously ill here. He was brought home from the hospital because his condition was too critical to withstand on operation.

JAPAN DEMANDING INDO CHINA FACILITIES

Japan has demanded of the Vichy government the use of all facilities in French Indo China.

Representatives of the government of France were reported conferring with Germany's Ribbentrop somewhere on the Eastern Front. It was a strange procedure. Vichy seemed depending on Germany to protect Indo China.

The official German News Agency, DNB, relayed a news flash that the British nor the Free French had any designs on Indo China.

The Japs were said to be whipping up sentiment in Japan over a proposed coup of the British and Free French in Indo China.

If the Japanese are demanding use of facilities in French Indo China it would seem to indicate that an attack on Singapore is contemplated.

The development of war on Britain in the far east would seem to fit into a plan of Germany to get active aid from Japan.

As soon as Russia has been dealt with, and that will be soon, the Germans plan subjugation of Turkey and then India. This would form a juncture with Japan and would control the Indian Ocean, and all approaches to the Mediterranean from the east.

Such a successful venture by the Axis would end the war and push Britain out of all her world possessions except Canada and the British Isles.

What will the United States do in case of further expansion of Japan in the far east. If the United States could find the courage to move into Singapore the Japs would be effectively blocked and so would Germany.

That however is action and if there is anything we know is not in the calendar for America, it is action.

So obscure were reports from the war between Germany and Russia not much can be said.

The Germans seem to have done a better job in the air raid on Moscow than the Reds admit.

The Reds seem to have done a better job at defending the Stalin line than the Germans admit, for the Nazi are throwing all their reserves into the battle, bringing up men by forced marches.

The ancient city of Kiev seems doomed as perhaps will be Leningrad. The Russians still claim they are in possession of Smolinsk.

The German strategy seems to be to encircle Smolinsk or any other place so stubbornly held by the Russians and to pinch off a little at a time the vast Red Army.

There was in the making a gigantic co-operative bombing plan between the British and Reds, aimed at destruction of Berlin, the British

by day and the Reds by night.

Adolph Hitler's newspaper has promised a sensational exposure of Franklin D. Roosevelt. As proof of his sinister influence and perhaps designs on the World, the paper says a photograph has been found in Norway of the President taken in company with Masons.

The fact that Mr. Roosevelt is a Mason could have been ascertained by looking up Who's Who in America. Thus the studdity of the propaganda artists goes on.

The German re-action to the Draft status is that Roosevelt is trying to usurp the powers of Congress. That doesn't make sense either, for it was Roosevelt who asked Congress for such a law.

CHRISTIAN SCIENCE SERVICES

"Truth" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 27th.

The Golden Text is. "O praise the Lord, all ye nations . . . For his merciful kindness is great toward us, and the truth of the Lord endureth for ever" (Psalms 117:1, 2.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And the Lord heard the voice of Elijah; and the soul of the child came into him again, and he revived . . . And the woman said to Elijah, Now by this I know that thou art a man of God, and that the word of the Lord in thy mouth is truth" (1 Kings 17:22, 24.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy. "The eternal Truth destroys what mortals seem to have learned from error, and man's real existence as a child of God comes to light. Truth demonstrated is eternal life" (page 288.)

Frank Slavik Says He Will Run For Legislature

Frank Slavik, widely known citizen and world war veteran, told The Daily Herald Saturday, he is thinking of making the race for the Legislature.

Resignation of Representative Reese Turner caused a vacancy which must be filled by an election called by the governor.

Mr. Slavik indicated he may make formal announcement next week.

CARD OF THANKS

We take this opportunity of expressing our sincere appreciation and thanks for the kindness extended by all our friends during the recent death of our father and husband John Mills. We especially thank those for the floral offerings and the Green's Funeral assistants.

Washington News From Your Congressman W. R. POAGE

The House continues to work on defense items almost exclusively. Yesterday we passed a bill authorizing half a billion dollars for the use of the Navy in the repair of ships, the enlargements of docks and yards, and the erection of new explosive plants. An interesting item in this bill was a provision for seventy million dollars for the erection of a plant to produce a new type of explosive. The nature of this explosive has not been made public, but it is said to be different from any explosive now produced. This is one of the relatively few new inventions that seems to be in line for use in a big way.

Many thousands of inventions are being submitted to the War and Navy Departments and to members of Congress, and to the White House. There are so many from all parts of the country that it has been necessary for the War Department to establish a Bureau of Inventions to which they can all be submitted for investigation and consideration by men who are at least supposed to know something of their feasibility. Of course, I am not an expert in this kind of thing, but many novel plans have been presented that look good to me, but which were turned down as impracticable, or rejected as being already available when presented to the board of experts.

While this is the only way to handle the volume of plans that come in, I cannot but fear that our military and naval men are all prone to be too conservative and too slow to change their established ways and methods. Therefore, the plans to produce a new type of explosive are very encouraging to me. One illustration of the reluctance of the Army to change its traditions is seen in the fact that our army still devotes relatively more attention to training masses of men than to the complete mechanization of many divisions of troops. I realize that we must have trained men, and lots of them. I realize that we have not as yet trained enough men. I realize that we must in time like these keep a vast army of trained men ready

for action at a moments notice, but I am also convinced that our men must have more tanks, more artillery, more trucks, more armored cars, more anti aircraft guns, and of course more airplanes. We should have not two, ten or even twenty armoured and mechanized divisions—we should have the great bulk of our army equipped with all of the latest machinery. In this way we can increase the efficiency of each soldier many times over. In this way, and only in this way, we can make one or two million well trained men more effective than an old fashioned army of eight or ten million.

I realize that to establish such an army requires just as many men as the old type did, because it takes so many industrial workers to supply and maintain a mechanized army. To my way of thinking it is better in every way to use the great masses of our men in industry rather than in ranks. In so doing it seems to me that we could use many of the millions who are being rejected for military service on physical grounds. However, such a policy to be successful would require a better response on the part of industrial workers than we have heretofore had. It would likewise require a more general recognition of their responsibility for the defense of their country. The attitude of those who say that American soldiers can whip the world with rifles and bayonets reminds me of the statement of the famous Bob Tooms of Georgia who said at the beginning of the Civil War, "We can whip the Yankees with cornstalks before breakfast." The trouble was that the Yankees wouldn't fight with cornstalks, and the trouble now is that the dictators won't fight simply with rifles and bayonets.

We have expected the tax bill each week since about the middle of May but the Ways and Means Committee continues to revise it. It now seems quite certain that it will not reach the House before the first of August. It is thought that if it ever gets on the Floor it will be quickly passed as the rules of the House will not permit long debate, but when it goes to the Senate it will probably involve several weeks of debate.

With best wishes, I am,

Yours very sincerely,
W. R. POAGE, Congressman,
11th Texas District.

.. now I'm Roller Skate Kate

Not bragging, mind you, but I'm the most popular carhop at our place. That's why I have had to roller skate to cover all the customers who now call my number.

You see, it was just a month ago my great idea dawned. I began to tell folks how grand-tastin' Grand Prize Beer really was. Because of my salesmanship, customers tried this beer the first time. Now they always specify Grand Prize by name because one bottle of this grand-tastin' beer brings folks back, begging for more. Yes, and when they return, they always ask for me.

Now, if you enjoy deep mellowness, intriguing aroma, and lively sparkle in the beer you drink, call for Grand Prize next time you are thirsty. If you live near where I work, stop in and ask for number 11—Roller Skate Kate. I shall gladly serve you with grand-tastin' Grand Prize . . . and so will your neighborhood dealer.

At a buffet supper Friday night, in her home, Mrs. Geo. Mode announced the approaching marriage of her daughter, Catherine to John Calvin Haygood, Lt. U. S. Army Air Corps, Sacramento, Calif. The centerpiece for the table was a miniature model of an air plane (pursuit ship) and plate favors were tiny planes with Catherine-Calvin and the date of the wedding inscribed on the wings. The wedding will take place on August 1st, in Sacramento, California.

Refreshments consisted of an at-

tractive and appetizing salad plate, angel food cake and iced tea. The home was beautifully decorated with asters and zinnias in a variety of colors.

Guests invited were: Theresa Manning, Velma Reese, Billie Marek, Dorothy Matula, Martha Frances Brogdon, Mary Mode, Norma Mode, Mildred Thornton, Ella Bess Haygood, Mesdames Jack DuBois, Homer Plentl, J. W. Haygood, V. L. Luckett, J. W. Mode and Misses Diane Luckett and Jeannie Purl of Austin.

JOHN HUDSON MILLS BURIED AT LIBERTY

Funeral services for John Hudson Mills were held Friday afternoon at 6 o'clock at Liberty with interment in the Liberty cemetery.

Mr. Mills died in Houston from injuries sustained in a car crash, at 7 p. m. Thursday, July 17th.

Funeral services were conducted by Rev. J. W. Mills pastor of First Methodist church in Cameron, with the Green Funeral Home directing arrangements.

John Hudson Mills was born Feb. 16, 1895 at Milano. He was married to Ola Kirk on December 22, 1915.

He is survived by his widow and four children as follows. Mrs. John Mills, widow; Mrs. Ruby Wise of Milano; Mrs. Tommie Miller of Houston; Mrs. George Hartley of San Antonio; and John Keith Mills of Houston. Two grand children, five brothers and two sisters also survive him.

Mills lived in Milam county until about 3 years ago when he moved to Houston where he had lived since. Injuries sustained in a car wreck caused his death.

WITH THE BAPTISTS

Lots of things have taken place this week at our church; about seventy five were present for our church night supper. Deacons meet in their regular monthly session and preparations have been made for a number of our girls from 9 to 25 to attend the District Girls Auxiliary house party at Baylor Belton. The girls will meet at church at 2 o'clock Monday for the departure to Baylor Belton.

Sunday in our services, good music, fellowship and a cool auditorium awaits you. Pastor preaches Sunday at 11:00 on subject, "Excess Baggage, How Costly, and Sunday night on "Does It Pay to Be Foolish?"

Sunday afternoon representatives from all Baptist Sunday Schools will meet at San Gabriel for Conference program. This program is sponsored by Rev. C. A. Dabney of Milano Baptist church.

Mrs. Elmer Byrd of Tracy was a business visitor Thursday.

H. W. Massengale of Maysfield was a Cameron visitor Thursday.

BRITISH SAY NIPPON WILL STRIKE SOON

Speculation over what Japan might do in the far east all but overshadowed the great battle between Russia and Germany.

An attack on Siberia was freely predicted in London where a government spokesman said that Germany has found Russia too tough and has sent an S O S call to Japan to attack in the far east.

Hurried conferences in Washington between President Roosevelt, Secretary of Navy Knox and other naval authorities indicated that the American government might be considering any eventuality in the far east.

Any move southward by Japan would precipitate a war and might do so if the Japs attack Russia in far eastern Siberia.

All qualified observers agree that the war party, the army and navy have taken over Japanese policy and this forecast trouble for both British and the United States in the far east.

Germany was pressing hard the battle against Russia. The Reds say no important changes have occurred on the eastern front; that although severe fighting is in progress, the Reds are holding everywhere.

Legion Offers Free Swim for Aluminum

A free swim in Cameron pool will be given to all children up to the age of sixteen years between the hours of 3 p. m. and 6 p. m. Monday July 21.

This arrangement has been made by the American Legion with the co-operation of the City Council.

Emmett Streetman, Post Commander, announced the plan some days ago. Any piece of aluminum which is not smaller than an ordinary measuring cup will be accepted and in this way the Legion hopes to make a substantial contribution to the aluminum drive in Cameron.

TO CONFER RANK

The Rank of Page will be conferred on a class of four at the Monday night meeting of the Knights of Pythias, July 21st.

The following are the candidates: Jack E. Stidham, Merlin Lester, Chas. C. Smith, Jr., and Alfred Price.

MISCELLANEOUS SHOWER

On Saturday night, July 19th, at the home of her parents Miss Diane Luckett of Austin honored Catherine Mode, bride elect of Lt. John Calvin Haygood, with a miscellaneous shower.

Games were led by Diane Luckett and Norma Jean McElwrath, prizes for which were presented to the bride elect.

Gifts disguised as a basket of laundry were presented to Miss Mode. Punch and cookies were served to Norma Jean McElwrath, Myrtle Stidham, Ella Bess Haygood, Dorothy Gohmert, Dorothy Perkins, Charlotte Perkins, Nadine Wilson, Lucille Stedman, Dorothy Jane Harrell, Doris Newton, Billie Marek, Rosemary Luckett, Mesdames J. W. Haygood, Geo. Mode, V. L. Luckett and J. W. Mode.

Mr. and Mrs. Joe Denson and Mr. and Mrs. Homer Nabours spent Sunday at Blanco, at the Grills Scout Camp, visiting their daughters, Misses Marjorie Ann Denson and Hortense Nabours who are spending two weeks at the camp this season, they being high ranking girls from the Cameron Girls Scouts. There are around 75 girls in the camp each week, changing every two weeks and they have 12 instructors who give them daily lessons in swimming, boating, Archery, horseback riding and other subjects. They are entered at the camp as either Brownies, Juniors or Intermediates, ages of the girls range from 8 to 13 years old. The camp opened in June and will continue into August.

Mrs. Paul Porter, Mrs. Manuel Werner and Miss Mary Randolph will leave Thursday morning to spend their vacation in Port Arthur and other points south.

Mrs. Moxie Bauknight of Galveston spent the week end with her sister, Mrs. W. S. Brewer. She was accompanied home by her niece Miss Marion Brewer.

Story of Woodmen Circle Convention In Omaha Told by Cameron Delegates; Bring Back Inspiring Account of Anniversary Of Order

By GLADYS MATYASTIK
Rosebud, Texas

The three delegates of Cameron Woodmen Grove 996, Mesdames Leo Laake, Hugo Boedeker and Bill Storey, Sr., join "Woodmen delegates," at Waco on Saturday morning June 21st, leaving Waco at 1:30 p. m. Arrived in Omaha, Neb., Sunday morning June 22nd, at 11:30 a. m.

Texas had nine coaches of Woodmen delegates representing Cameron, Rockdale, Austin, Taylor, San Antonio, Temple, Waco, Dallas, and many more "Texas cities."

After arrival in Omaha, a "Movie Picture" was taken of all the "Woodmen's delegates," registering in "Loyal Hotel." The Supreme Forest Woodmen Circle furnished two breakfasts, one dinner and banquet to 2,000 Woodmen delegates, costing \$11,000.

The Institute program was jammed with Pageantry and Rituals, Parades and stunts, along with a number of business sessions. More than 2,000 of the Woodmen Circles, 132,000 members were in the National Headquarters City for the affair. Which included the first quadrennial Tau-Phi-Lambda Sorority convention and nine regional conventions.

One of the most spectacular presentations of the Institute was a Pageant at the City Auditorium at which 2,000 taffeta gowned women portrayed the Society's five decades of progress. Climax of the pageant was the "March of Time," in which a gigantic human clock revolved about the Nucleus of a human Birthday Cake with 50 candles.

The Pageant amazed spectators by its military precision and delighted them with its spectrum of pastel colors. Eighteen shades of colors were represented.

A colorful parade of delegates, drill teams, bands and drum and bugle corps was witnessed by thousands of Omahans over a mile-long route through downtown streets. It was followed by a welcome from Omaha's Mayor, Hon. Dan B. Butler; the Lieutenant Governor of Nebraska, William Edward Johnson and other celebrities.

A huge banquet attended by 2,200 persons filled the City Auditorium for one evening session. Speakers included Alex O. Benz, President of the National Fraternal Congress of America, of Appleton, Wis., and Mrs. Dora Alexander Tally, President of Woodmen Circle. Mrs. Tally expressed her gratitude to every member for her individual contribution to the success of the organization and proclaimed her faith in the future of the Society.

The Supreme Forest Woodmen Circle founded in Denver as the "Mystic Circle," in 1891, is now one of the largest fraternal benefit societies operated exclusively for Women and children. It has more members than any other society dealing chiefly with women and children in 11 states. The Society's 50th anniversary celebration and National Institute, one of the greatest fraternal gatherings in history.

Woodmen Circle delegates made visits to the Union Pacific Historical Museum, located at 15th and Dodge streets, just four blocks from convention headquarters, it contains one of the most complete exhibits of its kind in the Middle West. There are curious household articles and farming implements used by the pioneers, valuable documents, photos and drawings of historical events, Indian relics and many other pieces that recall the struggles and triumphs of the early settlers.

The museum is open from 9 a. m. to 5 p. m. except Sunday. Special evening parties can be arranged on application. Visitors may park cars without charge in a parking lot adjoining the building.

Omaha's four million dollar Joslyn Memorial Art Museum will be a favorite spot for visitors. One of America's most beautiful art centers, houses a wealth of notable permanent and guest exhibits, a popular place with Omahans and visitors alike. The memorial is second in per capita attendance in the nation.

The majestic structure is two blocks long and a block wide. Modern Egyptian in type, it is built of Georgia Pink marble. Joselyn Mem-

orial has no windows to mar the broad expanse of gleaming marble. Illumination is provided by a skylight system.

Ten galleries and a concert hall seating twelve hundred persons are included in the building. An indoor court with a fountain and tropical plants give the visitors a feeling that they are entering a Monarch's palace.

Not only does the Joslyn Memorial conduct a year-round cultural program of lectures, plays and concerts, but it sponsors art classes for Omaha school children and maintains a library for the public.

With a trained staff acting as hosts daily tours of the memorial are held. The memorial was given to the city with a generous endowment by the late Mrs. Sarah A. Joslyn, in memory of her husband. It was opened in 1931 as a center for the world's best musicians and artists to entertain.

Thousands visit it each year. It is a favorite spot for tourists, convention guests and Omahans as well. And, of course, everyone is interested in Father Flanagan's Boys Home, called "Boys-Town," the City of Little Men.

Father Flanagan's Boys Home, located 11 miles west of Omaha, was established in 1917 by an Irish Catholic Priest, who believed in boys—Believed that they could be taken from the streets, from reform schools and poor environment and be molded into good American citizens. This kindly Priest believed twenty-three years ago that no boy wanted to be bad. Twenty-three years of practical experience with homeless boys has proven to him his belief in homeless boys is justified.

Father Flanagan became interested in homeless boys by dealing with unemployed men during 1914, 1915 and 1916. In order to help these unfortunate men, he organized the Working Men's Hotel. But Father Flanagan dreamed of a home for homeless boys early enough in life, he could provide a good education for homeless boys early enough in life, he could develop them into useful American citizens, with the proper guidance and direction. Age limited 11 to 18 years each boy has the right to believe in any religious church, two-thirds of the boys are Catholics.

His dreams came true early in December, 1917, when Father Flanagan's Boys' Home was first opened in Omaha with but five charges. Over a period of years, he has cared for more than three thousand boys. Increased enrollment resulted in the purchase of a farm ten miles west of Omaha, which is known today as "Boys Town."

Wednesday afternoon June 25th, Mesdames Dora Alexander Tally, National President, and Mamie E. Long, National Secretary, held open house to all Woodmen delegates from 2 p. m. to 5 p. m., served refreshments to all attending.

Thursday morning, June 26th, went to Woodmen Circle, and Woodmen of the World Headquarters open house was held here. Program of "Welfare."

Back to "Loyal Hotel," packed suit cases; left Omaha for Texas at 5:45 p. m. All enjoyed this wonderful trip.

DANCE

Mr. and Mrs. D. Ehrhridge entertained for Miss Peggy Ruth O'Brien on Wednesday night with a dance at Cato's Cafe. Miss O'Brien's father is with the Texas Power & Light Co., and she is spending her vacation in Cameron. Approximately 150 enjoyed the program and all report an excellent time.

Guests were present from Cameron, Rockdale, Rosebud, Hearne, Temple, Burlington and Waco.

BIRTHDAY PARTY

In honor of her daughter, Joyce Allison's 8th birthday, Mrs. Clarence Allison entertained thirty-two of her friends with a party Friday afternoon. After playing games, cookies, gold-
en punch and candy were served. She received many beautiful gifts.

JAPAN EXPECTED TO STRIKE IN FAR EAST

Japan was expected to strike in the near east within the next few days or perhaps hours.

With German successes in Russia the Japs were certain they had chosen the right side in the war. They have accepted the United States as a weak and four flushing democracy and will either push into the South Pacific for Indo China or Singapore, or attack Siberia.

Some observers thought Japan might attack Russia. A non-aggression pact is a declaration of war in these times.

German bombers struck at Moscow, killing a large number of civil-

lians and setting fire to many houses. The attack was attempted with 200 planes. The Reds said they never got through.

There was little to report on the Russo-German war, both sides claiming successes. Neutrals said that Russia was fast losing the war.

The slow moving Washington government was still asleep. Congress may act on the draftee proposal soon, it was said, but not until after enlistment periods expire.

Local registrants were getting a break. If the government retains present inductees only a few men will be called to the army.

No calls have been issued since early July.

"VENI, SANCTE SPIRITUS"

KING ROBERT II

Come, Thou Holy Spirit, come.
And from Thine eternal home
Shed the ray of light divine.
Come, Thou Father of the poor,
Come, Thou Source of all our store,
Come, within our bosoms shine.

Little Stories GREAT HYMNS

Few kings have left a better legacy to the Christian church than King Robert II who gave us this great hymn. We are told that he loved the service of chorister more than his kingly service, and often went to the Church, and in his royal robes with his crown on his head would direct the choir.

The Westward Course of the Empire— they wanted LAND...

Cramped quarters were not for the men who won our country. The crowding of the East drove them toward the West, where a man could breathe—it was the LAND that they wanted! This spirit of adventure that drove the pioneers to the unexplored and perilous West is the same spirit that later spurred men to make America a power in the affairs of the world—but LAND was what they needed first!

Land is Wealth

You need LAND for that feeling of solid security, land that you know is yours, will always be yours! Invest your savings in land and you'll know that your investment is safe, always! In this region there is ample opportunity for profitable investments.
